

The historic events of May & June with responsibilities !

By : Robel Yohannes (Zara) Nairobi.

No matter it has been days since May 24, The colors and the spirit of our Independence Day Celebration has still full of life. This is simply because our Independence is unique!.

Independence for Eritrea, it a matter of life and identity, well being, sharing of resources to all of its people. Yes, Independence to Eritrea is self reliance, eradicating of poverty, disease and illiteracy. Promoting Education and improving standard of living to its people. Believing in hardworking and living in harmony. Yes this is independence! Rebuilding our beloved nation. Repelling to the would-be envies.

Independence for Eritreans has dissimilar meaning than others do. Eritrea has got its independence by its determination and bitter armed struggle which demanded firmness and blood of its beautiful and strong people. Our ordeal is different from other countries as they got their liberty as a gift. But we, Eritreans, got our country back from colonies through heavy sacrifices. That's why we believe and consider that our independence is a gift of our martyrs and we do celebrate it colorfully weeks to come to its due day. In order to fulfill our pledges and secure our independence we keep an eye and look after its territory with extra careful. To see our dream comes true, we work relentlessly. We all Eritreans participate in the nation building campaign in order for us to move to the county forward. Yes (Erena! Kem Teamr n natsnet Kiya Limeat Kemtiewet Teamanine!) Late Abraham Aefwerki! Yes! Eritrea is moving forward in all sectors Mining, Health,Agriculture, Education, Tourism etc despite western fantasies. As the say goes, The Camel keeps marching regardless the dog barks. NKID TRAY !!!!

We are at the bridge right now.....or in the middle of the historical days.

24 May -----at the moment (Bridge)-----20 June

We Just celebrated our Independence day recently and now the Martyrs day is approaching. We have come to breathe the Independent air through martyrs blood, bone and flesh. Their thoughtfulness, magnanimity, vision, diligence , devotion, honesty and patriotism will never ever forgotten. May their soul rest in eternal peace!!!

As everyone understands that May 24 is the byproduct of June 20. This means that our fallen heroes brought us the independence which is unique and celebrates flamboyantly in May. And we remember them in June. Having saying that it does not mean that we only remember our fallen heroes on June 20. The fact is ,We do remember our martyrs, day-in day-out through out the year. But the day that is June 20 is the special day in order for the people who live in home and abroad to celebrate it at one moment together. Our fallen heroes has not only brought us the independence but also love, strength, peace, and they need us to be united, strong, helpful, and stay vigilante. We have responsibility to fulfill our oaths. We have responsibility for the progress of the Nation. We have the responsibility for stability of the country. We are responsible for each and every activities in our beloved state. We are also responsible to take care of the family/parents of the fallen heroes ; specially if their family or parents are at risk we are the one to support them.

Glory to our martyrs !!!

Awet N'hafash!
